

Always be there for  
your loved ones...  
no matter where you are

## Introducing **Lumin**

Lumin is so easy! A large 17" free-standing simplified touch screen plus Supporters App, enhances the lives of tech-shy older loved ones – keeping them in touch with family, friends and carers.

Lumin gives your older loved ones the sense that they have people around them and can easily reach you, via one touch phone or video calls, instant messages and photo sharing.

Even if mum or dad aren't familiar with tech gadgets, they can pick up the Lumin and just use it. It's that simple, they don't have to worry about breaking things or doing something wrong.

## The peace of mind you'll get is priceless

**“It’s a great concept. In over 40 years in Aged Care practice, I have not seen a device that could be so useful for family and carers.”**

Dr. Janet van Leerdam MBChB MRCP.

**“Lumin is just marvellous! It keeps me connected with family and the outside world.”**

Lori McNamara, Lumin screen user.

### Made to do more together

#### Alerts

Get emergency alerts when your loved one is in distress and needs help.

#### Messages

Receive and respond to voice, text or photo messages.

#### Shared Calendar

Never let your loved one miss meaningful events like birthdays and other special celebrations.

#### Photo Sharing

They’ll love staying in touch with family and friends – through photo sharing.

#### Audio Calls

They can reach you with one touch phone calls – whenever they need to.

#### Video Calls

Surprise and delight your loved ones by including them in moments that matter.
